Vote NO on the Charter Next Tuesday

PROPOSED COUNTY CHARTER POINTEDLY PICKED TO PIECES

BY OLD-TIMER

FOURTH INSTALLMENT

In the three installments preceding the present one it has been the object to take the Articles and Sections of the proposed Charter in the order in which they appear, and, having concluded the entire discussion in the form as outlined, it shall be the object in the last installment to point out in a general way the result of the various provisions.

As has well been said "if the controller is taken out of the charter there is no charter left" so let us inform ourselves accurately just what the controller means to our county if he becomes an officer. Let the voter realize, that in spite of the fact that this great and powerful government of our is founded and conducted on the policy that the people as a whole are the rulers through their elected agents, and, in spite of the fact that from the time of the formation of this republic the great fight has been to keep the power in the people, the advocates of the proposed charter are attempting to give the controller more uncontrolled power than the president of the United States or any governor of any state ever had or has for the power of the controller can only be likened to that of "The Czar of all the Russians" of the days now thankfully abolished.

To give the voter a clear and concise understanding of the above we shall detail the powers of this controller.

1. He arbitrarily fixes the budget and his maximum cannot be changed.
2. He dictates the spending of all the money for all departments.
3. He buys all the goods and property for the county.
4. He can sell all county property at his pleasure.
5. He has complete charge of all county buildings and property.
6. He has complete charge of all roads and bridges, their maintenance and repair and the spending of all money relating to them.
7. He selects the number, fixes the compensation and limits the time of employment of all assistants and deputies of elected officers who are under bond to faithfully conduct the business of their offices.
8. He cannot be recalled and may only be discharged for cause (which means legal cause decided by the courts).
9. In contrast to No. 7 he employs and discharges all his own assistants and deputies at his pleasure.
10. And above all the supervisors must delegate all their executive powers to him.

Think well and carefully, Mr. and Mrs. Voter that this man besides having all the uncontrolled powers delegated to him in the nine first duties, becomes through the delegation to him of all the executive powers of the Board of Supervisors, the political boss who controls all state and county elections through his self-appointed election officers, a dictatorial power that Tammany Hall with all its power never dreamed of.

And next in importance to this dictator comes his co-appointee the County Attorney. This legal "light" (or heavy) appointed by the same power that appoints the controller, becomes the advisor of all the County Officers on civil matters, including the controller, and the proposed charter is silent

as to his compensation, or in other words there is no maximum to his salary.

The writer has searched diligently in an effort to find one single governmental unit in the entire United States where powers, such as these two appointive officers have, delegated to officers appointed, and which so completely override those of elected officials but without result, and therefore, if the citizens of this County do not wish to see their power to govern themselves completely wiped out on May 15th, the one and only alternative is to assert the right of citizenship, go to the polls and VOTE NO.

JUNIOR HIGH?

Whether it Will be a School or Just Grades is a Much Mooted Question in This Section

The newly organized Board of Education or rather the old Board with one new member, Ed F. Hastings, held its first meeting last Tuesday and outside of the regular routine of business and the usual committee work, the most important subject discussed affecting Beaches was Junior High. Another meeting is called for tonight, when action will be taken upon the following communication.

OCEAN BEACH CHAMBER OF COMMERCE

Ocean Beach, Calif., May 8, 1923
To Honorable Board of Education, San Diego, California,
Ladies and Gentlemen:

It has come to the attention of this organization that your Board has lately discussed the question of the location of a Junior High school to serve the children of the Point Loma Peninsula and vicinity. In connection with this subject I am pleased to inform the Board that on numerous occasions the Ocean Beach Chamber of Commerce and the residents of the Peninsula have urged and requested that a school, such as proposed, be established and located at a point convenient to all the district affected.

At the discussions on the subject it has been brought out that the residents feel keenly the danger and discomfort to children of tender years, caused by the long absence from home, and the great distance they are forced to travel unescorted in order to reach school, and I am instructed to request your Board to allow the people of this vicinity an opportunity to confer with you, either at a meeting of the Board, or at a meeting of this organization called for the purpose, and at a time suiting your convenience.

Very truly yours,
F. B. HARRISON,
Secretary.

DEATH OF CHARLES N. WILLIAMS

Charles N. Williams, a well known painter who resided at 4656 Narragansett avenue, died at 4188 El Cajon avenue, East San Diego, last Sunday, May 6. He was the husband of Mrs. Laura Williams and brother of W. T. Williams of San Diego, A. B. Williams of Denver, Colo., C. B. Williams of Wichita, Kans., R. B. Williams of Oswego, Kans., and Joan Brewer of Fair, Mo.; a native of Tennessee, aged 53 years 5 months 25 days.

Friends and members of the Woodman of the World attended the funeral services held at the Benbough funeral parlors last Tuesday afternoon. Cremation took place at Benbough's Clover Lawn crematory.

New Franchise For Fast Line Signed By Mayor

The ordinance granting to the San Diego Electric Railway company a franchise for a new fast commercial line to Ocean and Mission Beaches was signed by Mayor Bacon and returned last Wednesday to the city council, whose members have already given it their unanimous endorsement.

Beginning a month from the date of signing, the ordinance gives the company authority to construct a railroad on Kettner boulevard to Ocean and Mission Beaches by way of Dutch flats. This is a short cut to the beaches and will provide a much quicker service than at present.

In returning the ordinance to the council with his approval, the mayor attached a typewritten communication giving his views concerning the franchise and its provisions.

MANAGER O. F. DAVIS ON ENFORCED VACATION

O. F. Davis, known familiarly to his friends as "Ollie" and the very popular and progressive manager of the Merry-Go-Round and Pavilion Picnic Grounds on the shore front, has gone to Los Angeles on an enforced vacation.

Mr. Davis left last Tuesday to take treatment at the Radio and Onological Institute in the northern city for an incipient cancerous growth on his right leg. While the malady is not painful or dangerous at present, he believes in immediate action and will place himself under professional care for three weeks or more.

Manager Davis was a pleasant caller at The Beach News office last Monday evening, and was decidedly cheerful and optimistic over the successful outcome of his trip for treatment in the Angel city. A host of friends share in a sincere desire for his healthy and happy return at an early date.

BOOKKEEPER ROBINSON COMMITTS SUICIDE

Living alone and out of employment, Charles S. Robinson, an expert accountant, committed suicide, presumably through despondency, last Thursday by inhaling gas in a bungalow on Voltaire street, where he had been living for some time.

Up to a fortnight or so ago, Mr. Robinson had been employed as chief bookkeeper at the Ocean Beach Lumber company on Newport avenue. He was a native of England, 57 years of age, and was of a very reserved disposition. His employers and business associates state that he was an exceptionally good accountant, and from his conversation gave evidence that he was well versed in banking and banking laws. His taciturnity was most marked and little was known of his personal history.

When found last Friday, the body of Mr. Robinson was sitting rigid by an open gas plate, the feet being wrapped around the legs of a chair and a blanket partly covering the head. He had evidently been dead several hours as Officers Reama and Webster summoned on the case, had to demolish the chair in order to separate it from the cold body.

Mr. Robinson was the brother of Mrs. Jennie Clark of Coronado and Mrs. Anna H. Redmond of Athy, Ireland.

Friends invited attended the funeral services at the chapel of Johnson-Saun company yesterday morning. Rev. Charles L. Barnes officiating. Cremation occurred at Greenwood crematory.

Activity in Building at Mission Beach

Development, building and improvements do more than any other thing, with the exception of desirable location, to make a subdivision a success from the standpoint of the homeseeker and investor, as well as the subdivider himself, according to members of the Mission Bay Beach company.

Now is the time to build homes, declare representatives of this progressive firm, as building costs are becoming higher instead of lower, while water, gas and electricity will be available for builders. It is asserted that no expense will be spared to make the Mission Bay Beach tract one of the most attractive locations in Southern California.

Get your MOTHER'S CARDS for "Mothers' Day" at Froide's Photo Studio, Newport avenue.

"PEG O' MY HEART"

That's the title of the big special at the Ocean Theater for next Wednesday and Thursday nights and it promises to be a hum-dinger, so be there early, the prices being 15 and 30 cents. "The Call of Home," another top-notch, comes tomorrow, and Jane Novak will start in "Colleen of the Pines" on Sunday, at the regular rates.

GET A LICENSE

FOR YOUR DOG

Poundmaster C. K. Maupin and his assistants are canvassing the Beaches and Peninsula this week for the purpose of gathering in all unlicensed dogs, so if you want to protect your pet canine you had better secure a license at once.

The Poundmaster is now connected with the operating department of San Diego, and orders have been issued that all dogs must be licensed or to the pound they go. The revenue derived from the issuing of new licenses will be partly devoted to the remodeling of the pound and the building of new kennels.

While on the subject of dogs, it is well to relate that there is an epidemic of distemper spreading in the city and it has been especially fatal at the Beaches, quite a large number of valuable dogs having died recently.

CITY OFFICERS STILL HOLD THEIR JOBS

The city council has reappointed the following municipal charter officers in their present positions: S. J. Higgins, city attorney; Louis Almgren, fire chief; Fred A. Rhodes, manager of operations; Allen H. Wright, city clerk; James Patrick, chief of police. W. H. Cameron, a well known electrician, was appointed superintendent of the purchasing bureau, succeeding W. P. Bates, who had been temporarily holding that position.

"FRED" RHODES HAS ALL SORTS OF JOBS

Following his reappointment as City Manager, F. A. Rhodes has been elected by the council for the position of city engineer and also as superintendent of streets. There's no salary connected with the two new jobs, but plenty of work to keep "Fred" busy when he isn't attending to the multifarious duties of city manager.

O. B. COMMUNITY HOUSE

The ways and means of providing Ocean Beach with a suitable Community House was discussed

Color Line Drawn At the Beaches

CLIMAX REACHED IN RACIAL TROUBLE

The great and good Abraham Lincoln once wisely said: "In this and like communities, public sentiment is everything. With public sentiment, nothing can fail; without it, nothing can succeed." And that splendid specimen of philosophy seems to especially suit the status of the present race differences at Ocean Beach.

For weeks there have been rumblings of discontent over the encroachment of colored people in the daily doings of white residents, and a rather regrettable climax came this week when two prominent business men were arrested on charges of assault and arson, owing to the burning of a small house occupied by a colored man, and the firing of gunshots at a late hour of the night in the forefront of this week.

Public sentiment, as expressed by the local commercial organizations and a variety of property holders, has been strongly adverse to the employment and patronage of members of the colored race, and a quietly determined effort has been made to draw the color line hereabouts, with every evidence of ultimate success.

However, the flare-up early this week, accompanied by a deal of sensational publicity, has unfortunately centered widespread attention on a rather distasteful condition that proper propaganda was about to correct and mitigate to the satisfaction and betterment of all concerned.

Be that as it may, the facts in the present case had their origin last Tuesday night in the burning of a one-room house, situated near Bacon street in the alley between Newport and Santa Monica avenues, and occupied by a colored man named King Clemens, who luckily happened to be absent at the time. Shots are reported to have been fired into the building before the conflagration. The house was owned by Mrs. M. J. Plummer of 1917 Bacon street.

Just previous to the fire, it is alleged that another colored man, named William McKnight, living in a ten further down on the same alley, had been instructed by two white men to vacate the beach for the good of the community.

When the fire occurred, both colored men started for San Diego on the run. They were overtaken on the highway by the firemen and police officers returning from the blaze, and, upon complaint of the runaways, the police came back to the beach and arrested R. J. Walsh and D. O'Connell, whom they found in bed at their home on Newport avenue, and both of whom denied any knowledge of the whole affair.

Upon their arraignment in Justice Jennings' court Thursday morning, after investigation by police and fire department officials and upon sworn charges by the two colored men of arson and assault, Mr. Walsh and Mr. O'Connell were held in \$750 bail on each case, a further hearing being set respectively for May 28 and May 29. Complete bail was given in both instances and the defendants returned to their homes for resumption of their vocations. Upon the advice of their attorneys, the accused men refuse to discuss the case other than to positively assert their entire innocence of the affair.

RADIO

PRESERVING TONE IN LOUD SPEAKER

How This Can Be Done and the Maximum Amount of Amplification Obtained.

The loud speaker is the ultimate aim of every radio novice, as with one of these instruments greater range of the received signals is obtained and the necessity of wearing the head phones is eliminated. The loud speaker also permits a greater number of people to hear the concert, as with head phones the number hearing the concert is limited to the supply of head phones, while with the amplification the number of people hearing the concert is limited to the range of the device.

There are several problems involved in obtaining the maximum amount of amplification, and yet at the same time preserving the original tone so that it will retain its pleasing qualities.

Most of these problems are involved in the maintenance of the quality of the received tone, as it is a comparatively simple matter to amplify the received signal sufficiently.

In order to eliminate or minimize loud speaker distortion, it is necessary to know the causes involved. The source of the trouble may be in the amplifier, in the loud speaker itself, or in both.

Amplifier distortion may be caused by unequal voltage transformations in the coupling transformer at different radio frequencies, by the operation of the amplifier tube at the wrong point of its characteristic and by overloading the tube to the point of saturation.

For good amplification of telephone signals, the inter-stage transformer should be capable of giving a uniform transfer of voltage from about 200 to 3,000 cycles per second. A good many transformers now in use do not do this, and their operation is one of the principal causes for unsatisfactory signals. For any particular plate voltage applied to the amplifier tube there is a corresponding value of negative grid voltage which should be applied in order to operate upon a straight portion of the characteristic curve and thus secure uniform amplification.

For connecting to the loud speaker, especially when using a power tube for the last stage, it is preferable to use an intermediate transformer with the proper constants, instead of placing the loud speaker directly in the tube plate circuit. This keeps winding and prevents the polarizing effect that it would have upon the diaphragm.

A two-stage amplifier will generally give enough intensity to operate a loud speaker in an ordinary living room, while the loud speaker mechanism itself may be of the head telephone type with a suitable horn. Some receivers operate very well at moderate intensities, but when very strong signals are applied to them they vibrate so violently that the diaphragms hit the pole pieces and produce harsh sounds instead of good reproduction of the original signals. To handle the proper amount of energy, therefore, the construction must be such that reasonably strong vibrations will not force the diaphragm to its limit of travel. The material and shape of the diaphragm are also important in determining the resultant tone qualities, since whatever natural periods of vibration it may have will bring out certain tones in greater proportion than they should be to the remaining tones of a musical selection.

The size, shape and material of the horn are likewise important factors in the final result. The high natural period of a small horn will tend to accentuate the higher tones to the exclusion of the lower ones. The material from which the horn is made should be some substance which will not vibrate and produce rattling sounds.

Thus we see that in order to produce a combination of amplifier and loud speaker which will give pleasing results, it is necessary to choose the various parts with care and assemble them so that they will give a true reproduction of the original signals.

NEVER FORGET YOUR MOTHER
MOTHERS' DAY, MAY 13

My Mother

Who fed me from her gentle breast,
And hushed me in her arms to rest,
And on my cheeks sweet kisses prest?
My Mother.

Who sat and watch'd my infant head,
When sleeping on my cradle-bed,
And tears of sweet affection shed?
My Mother.

Who ran to help me when I fell,
And would some pretty story tell,
Or kiss the place to make it well?
My Mother.

And can I ever cease to be
Affectionate and kind to thee,
Who was so very kind to me?
My Mother.

When thou art feeble, old and gray,
My healthy arms shall be thy stay,
And I will soothe thy pains away,
My Mother.

For God, who lives above the skies,
Would look with vengeance in His
eyes
Should I ever dare despise,
My Mother.

WHY THE CHARTER IS DANGEROUS

KIND WORDS ABOUT DOGS

Just a message to dog lovers
and owners: In case of distemper,
Bromo Quinine, the same direc-
tions as for a cold. It will cure
dogs of distemper and perhaps
save their lives.

Of course, if dogs are a nuisance
and are bothering the vegetables
on the grocery store floor, and
are in the way, it will be better to
save the Bromo Quinine.

But, if people could only un-
derstand their being dumb, NOT
in mind, only in speech, they
would appreciate their true love
for their master, and how they
will die for him. And the many
lives they have saved, by showing
their intelligence while not being
able to talk.

THEIR FRIEND.

FISH AND MORE FISH

Fish dinners were all the rage

had to jettison his cargo of a fine
catch of millers or mullets in or-
der to resume his voyage. And
you were out of luck if you didn't
secure a big 'un for baking pur-

three, and the one we tackled was
sure some toothsome delicacy with
all sorts of fancy fixings.

America's Marvels
NATURAL AND OTHERWISE

By T. T. Maxey

THE CRADLE OF LIBERTY

Independence hall, oft referred to as "The Cradle of Liberty," in historic Chestnut street, Philadelphia, where "Uncle Sam" was born more than 146 years ago, stands and looks very much as it did when, on July 4, 1776, the liberty bell rang out to the world from its place in the tower the news that the colonies in America had agreed to withdraw from the rule of England.

The plans for this venerable brick building, which is 100 feet long and 44 feet wide, were laid in 1729. Except for the wings and the tower, the structure was completed a few years later as a home for the Continental congress.

Possessed of a simple dignity and a quiet charm, Independence hall is a substantial and imposing relic of Colonial architecture—perhaps the most historic of all American buildings. To and through it come and go annually hundreds of thousands of citizens; representing every state in the Union and many lands beyond the seas.

This building has been the center of many a stirring and history-making scene. In it met that Continental congress which debated, then shaped, subsequently adopted, and finally signed, the Declaration of Independence. From its steps this precious document was read to the people. In it George Washington was commissioned commander in chief of the Continental armies. It was here that the first American flag was raised on his birthday in 1776. It was to this building that his body was carried to lie in state, and here it was that congress convened, following the close of the Revolutionary war during the summer of 1787, to agree to sign a constitution for the newly-created United States.

The room in which, one by one, the authorized representatives of the 13 colonies advanced in a tense atmosphere and affixed their signatures in ratification of the Declaration of Independence is indeed dignified. The walls of the building are graced with portraits of the signers and a painting of that dramatic moment when the signing was in progress.

Liberty bell, the most famous of all bells in America, was removed from the tower many, many years ago, and now reposes within a glass cabinet on the main floor, almost directly beneath the location from which it rang out its message of freedom on July 4, 1776.

MEETING OF CHAMBER OF COMMERCE May 7th, 1923.

Meeting called to order by Chairman Culmer at 8:15 p. m.

The minutes of the previous meeting were read and approved.

The report of the Community House Committee was presented by W. A. Thomas, chairman, and on motion regularly made and seconded the report was accepted and concurred in the Chamber of Commerce.

Following the report of the Community House Committee, reports were received from the Social Committee, Publicity Committee, Street Committee and Police and Restriction Committee.

The Chairman announced, that owing to his leaving Ocean Beach it became necessary for him to resign and therefore he tendered his resignation to take effect at the close of the meeting. Action on the resignation was postponed to a future date.

Bills of the Sunset Engraving Co. for \$33.40 and for rent in the sum of \$8.50 were presented. On motion duly made, seconded and carried the rent was ordered paid and the bill of the Sunset Engraving Co. referred to the Finance Committee.

Following a discussion as to the advisability of having a sign made for the Post Office, the Chair referred the matter to the Post Office Committee.

At this time speakers for and against the proposed County Charter were recognized by the Chair, and following a discussion of forty minutes the meeting adjourned.

F. B. HARRISON,
Secretary.

THE DINING ROOM FURNISHED IN OAK

The use of a small amount of vivid color to relieve an otherwise neutral color scheme is one of the cleverest effects achieved by the modern decorator. Take, for example, this dining-room, furnished in oak, with the new silver-gray rubbed finish. A lovely wicker tray, decorated with orange poppies on a black background hangs over the buffet. Two urns of iridescent glass, shading from pale yellow to deep orange, decorate the buffet top. The draperies are of gray shantung, lined with orange. Japanese grass cloth in a gray shade, with just a suggestion of orange, covers the walls, and a two-toned rug of gray completes the picture.

Don't "hide your light under a bushel measure." A business card at small cost in our advertising columns will tell the world and your neighbors that you're alive!

ABOUT SCHOOL PLAYGROUNDS

Editor The Beach News:

How many realize the day in which we live? The many sides of life. What are the tendencies? The University Heights controversy shows one of them.

Parents who live in the racket of a large family, do not mind or notice the noise of the public school grounds, which all will admit is much too great, while others with no children, or worn out with too many of them in past years, and perhaps in nervous collapse, live in torture from so much racket.

Old people especially, are tired with the battle of life, and want to be quiet the few days remaining to them, and object to having a lunatic asylum established next to their home.

The brutal advice to "move" is rough, and playgrounds close to your property cuts its selling price in half.

But old people have no rights on the earth, and are in the way anyhow in this day, so, drive them off to the poorhouse. Yet remember that "What measure ye mete, it will be measured to you again."

The Pacific Beach Community League met Monday evening with a good attendance, various matters of community interest were brought up, discussed and tentative plans made, the sign posts on the streets intersecting the boulevard have been set, will be painted at once and the names stenciled thereon.

CHURCH NEWS

On Sunday morning Rev. W. Millar preached an illustrated sermon, more especially prepared for the younger boys, but, as always, filled with much valuable instruction and advice for older ones as well. His subject was the kind of power needed to take a boy safely through boyhood and manhood of the best type and was demonstrated by the various kind of power and engines needed to take a train safely along its track to its ultimate destination. Those listening realized the great amount of time interest and expense entailed and spoke of their appreciation.

The C. E. Society met Sunday evening with Agnes Henderson as leader, the subject was, "Lessons from the Psalms, the 68th especially and the suggested question, "What would you think of a carpenter who forgot his most important tool?"

The Senior C. E. Society met in the Annex Wednesday afternoon at the regular time with a good attendance. The subject was "Alaska" in charge of Rev. W. Millar who gave a most interesting talk and showed many curious things from that part of the country.

The pupils of the Grammar school are making great preparations for a May festival to be given in a few weeks. The scene is to be laid in Japan and America and many of the European countries are to be represented.

BENEFIT ENTERTAINMENT

Everybody come and have an evening of fun at the Club House, Friday, May 18, at 7:30 o'clock. Signora Rogerino and Madame Woodwards (?) will exhibit for the first time west of Tijuana their unrivaled collection of freaks, gathered from all the quarters of the globe. Many are such as you have never seen before, and some that perhaps you will hope to never see again, but, be a sport and come just the same, not forgetting your children and pocket books—benefit the church piano fund.

PERSONAL MENTION

The Social Club met Friday with Mrs. Gross and Mrs. Fancher as hostesses.

Mrs. Vonnice Mitchell has been visiting her sister-in-law, Mrs. Edgar in Imperial Valley and in spite of the warm weather has returned much refreshed by the change and rest.

Mrs. Deffen who has been under the weather has quite recovered and is up and around again.

Mrs. McCusker, who has been visiting her friend, Miss Darling in San Diego, is home again.

Mrs. R. E. Twombly of Benton, Ill., who spent the winter with her daughter and family, the Edward M. Ritchies' has returned to her home. She has spent winters in various parts of the south, but the climate and beauties of Florida do not appeal to her as our own dear San Diego, and vicinity. She says our sunshiny climate is reflected in the hearts and dispositions of those with whom she came in contact.

Mrs. Samuels has bought two lots on Garnet street near the ocean front, and Geo. Brooks has bought the two adjoining. Mr. Brooks reports various sales of improved property and also vacant lots pending.

Tuesday morning quite an excitement was caused by a large fishing boat, the motor of which had become balky, coming ashore at Mission Beach. Quite a crowd assembled and all were given fish galore.

Mrs. Fannie Gleason has gone to celebrate her 79th birthday with her daughter, Mrs. Pollette at Bostonia.

Friends of Mabel Dula (Mrs. Harry Bradley) will be interested to hear of the arrival of a little son at Tonopah, Nevada. Mrs. Dula is staying with her daughter and plans to return to San Diego in the summer.

The job printing department of the Beach News does NOT make any charge for estimating on printing of any description and your orders would be highly appreciated. Phone Point Loma 17.

ABOUT PUBLIC PARKS

Editor The Beach News:

Does it ever occur to those "City Fathers" who are supposed to look after its children's welfare, that Ocean Beach is destined to become quite a town and that there is not a foot of ground reserved near the Beach for a park, or resting place?

Of course, there is a large piece of land up over the hill belonging to the city—a fine place for the High School to be built, but too far from the seaford to be useful as a rest on a warm day.

There are always "oversights" in laying out a town, which give us a chance to ask "Why didn't they," etc.

Even one block would be better as a resting park, than nothing, and the longer we wait, the more it will cost. Then the next generation will say of us, "Why didn't they?" etc.

ZENAS.

"The world is wide,

And leaves the rest—
Then do not worry."

MORE GOOD THINGS

A nice sandwich for the children's lunch or for various other occasions is

Raisin Sandwich.—Chop one cupful of seeded raisins very fine, add four hard-cooked eggs also chopped, one and a half dozen ripe olives pitted and chopped, all mixed to a smooth paste with mayonnaise dressing. Spread on slices of whole wheat bread.

Diamond Chicken Salad.—Rub a salad bowl with a cut clove of garlic, add one and one-half cupfuls of chopped cooked chicken, one-half cupful of chopped walnut meats toasted, one cupful of chopped celery, two tablespoonfuls of chopped pimientos, three tablespoonfuls of French dressing and a seasoning of salt and cayenne. Place on lettuce leaves, cover with mayonnaise dressing and garnish with walnut meats, lemon points and chopped parsley.

Fruit Salad.—Peel and cut in dice two oranges, two tart apples, two slices of pineapple, cut into cubes and well-mixed with three tablespoonfuls of French dressing. Add two-thirds of a cupful of broken nut meats, twelve seeded dates cut into dice, two tablespoonfuls each of green pepper and pimiento chopped, one-half cupful of blanched and chopped almonds. Line salad plates with lettuce and arrange the salad mixture on them, cover with cream salad dressing and garnish with halves of walnut meats, ripe olives and finely chopped blanched almonds and parsley.

Apple and Date Pie.—Peel, core, cut in slices, four or five tart apples. Place a layer of the apples in a pastry-lined plate, and over the apples place a layer of stoned dates; sprinkle with grated lemon rind, add another layer of each fruit, then add two tablespoonfuls of butter in bits, four tablespoonfuls of water and sugar to sweeten. If the apples are not sour add a tablespoonful of lemon juice. Cover with pastry and bake. This pie is good served with a custard sauce.

THE ONE-MAN CHARTER

THE COUNTY CHARTER TO BE VOTED ON NEXT TUESDAY PROVIDES FOR NINE "RUBBER STAMP" SUPERVISORS AND A

County Controller

WHOSE DICTATES WOULD BE BINDING ON THEM
HERE IS WHAT THE CHARTER PROVIDES HE SHALL DO:

Determine the number, term of office and compensation of employees of the county. (Art. III, Sec. 1, Par. d). There are 600 employees. Also, determine what offices shall be created and for how long, and what ones consolidated or abolished. (Art. III, Sec. 1, Pars. e and j).

Perform all executive duties of the Board of Supervisors. (Art. III, Sec. 1, Par. i). One of these duties is the naming of election officials throughout the county, of which there are at present 1440.

Let all contracts for county work. (Art. III, Sec. 1, Par. f).

Have "complete direction and control" of county roads, highways and bridges, and the expenditure of highway, road and bridge funds. (Art. VII, Sec. 1, Par. a, and Art. VIII).

Act as County Purchasing Agent (Art. VII, Sec. 1, Par. c). He has power to disapprove any requisition by any county or township official or employee (this includes the school trustees and the librarians), and his decision cannot be overruled except by six votes of the board of supervisors. (Art. X, Sec. 3). All county or township officials are forbidden to contract for or purchase any material or supplies whatsoever except through the Purchasing Agent. (Art. X, Sec. 2). Only when the amount of a purchase is \$1000 or more need bids be "invited." There is nothing in the charter to compel the acceptance of any bid. (Art. X, Sec. 5).

Have charge of all public buildings and all property of the county. (Art. VII, Sec. 1, Par. c). Every county or township official must submit an inventory to him monthly. (Art. XI, Sec. 1).

Be ex-officio member of the Public Welfare Board. (Art. VII, Sec. 1, Par. d) and supervise the budget, expenses and money transactions of the Welfare Department and the department itself. (Art. IX, Sec. 8).

Supervise every other department of the county. (Same paragraph as preceding.)

Appoint or remove the deputies and employees of his department "at his pleasure." (Art. VII, Sec. 1, Par. f). All other county officials are required to have their appointments confirmed by the Board of Supervisors by six affirmative votes, although they shall have power to appoint IF THE BOARD OF SUPERVISORS SEES FIT TO ALLOW THEM TO DO SO. (Art. IV, Sec. 6).

Appoint a road engineer as one of his deputies. (Art. VII, Sec. 1, Par. h).

Appoint a deputy who shall be County Surveyor. (Same article, Par. i). The County Surveyor now is elected by the people.

Approve or disapprove every item in the annual budget as to its purpose and amount. The Board of Supervisors is forbidden by the charter to INCREASE any amount recommended by him, although it may reduce or eliminate any item. It may REQUEST him to increase any item it deems too small, but if he refuses to do so, is POWERLESS to change his recommendation. (Art. XIII, Sec. 1). Through this means, the Controller will have a strangle hold on every department of the county and can force the officials and employees to do his bidding by threatening to cut off their funds.
